Project title	Program for improving care of diabetics in Phnom Penh
Project number	WDF 05- 119
Reporting period	1° semester 2009
Prepared by	Dr.Jacqueline Dicquemare
Date of submission	JUNE 2009

Progress for the past 6 months vis-à-vis project implementation plan

Activity	goals	Status December 08	Status (done) In June 09	Comments
1. Number of consultations	8500	19.000	22.000	We carried out 8 missions on the field: 4 of endocrinologist MD, 2 nurses, 2 coordinators.
2. Number of new patients	3000	4.500	5.000	
3. Number of training hours	1200	1.500	1.900	In Kossamak Hospital, in health centres of rural areas, with board of MoPoTsyo.
4. Study on the follow-up of patients		For the last 500 new patients	For the last 500 patients coming back	70% of patients are decreasing their blood sugar rates . The average of HbA1c of the patients decreased after 5 consultations (- 2%)
5. Study on the treatments		Patients treated with insulin	Study patients of rural areas	More of 20 patients are reached in rural areas. There general state is very bad , many with complications and very high blood glucose because they cannot buy drugs and they cannot go to the hospital
6. Project to develop the education sessions		done	Study Impact of video on patients and nurses	On 25 patients having seen the DVD : 90% tell to have been interested or to learn things. All assert having to modify the way of feed and physical activity. 50% hope explanations about complications and HbA1c The 4 nurses tell is a good support for patient education. We worked about the reformulation
7. Project of Multidisciplinary Unity for diabetes complications			8 meetings with Director and administrative staff, quotations for insulin market and building	It will not be possible because the new management of hospital cannot permit access at poor people Meetings with Dr Kapil (Novo Nordisk) for insulin market in Cambodia
8. Medias : Cambodia daily				4 news papers : Cambodia Daily, Cambodge Soir, “Diabetes layout in Cambodia”(IJD), Courier International
9. Ministry of Health				Participation in the seminary of the Ministry of Health for elaboration of the statistic system for patients with Diabetes and High blood pressure. Meeting with Docteur Mam Bun Heng , Minister of Health.
10. next projects				6 Meetings with Director of International medical institute for Project of “Diabetes clinic » in IMI
